Experience

Front-End Developer @ Freelance, Double Slash Studios

November 2007 - Present

- Worked with award-winning digital agencies, startups, and Fortune 500 companies on over 150+ medium and large-scale websites.
- Duties include front-end development, UI web design, custom Drupal theme implementations, Stripe e-commerce integrations, open-source contributions.

UI Developer @ NAS Recruitment

July 2018 - March 2020

- Translated requirements and conceptual designs into aesthetically pleasing, structurally sound front-ends for over 45 public-facing websites and applications.
- Collaborated with teams to deliver best in class products that are functional, intuitive and visually stunning.

Front-End Technical Lead @ Questex

February 2016 - March 2018

- Delegated tasks to front-end team and developed five unique platforms with over 60 multi-themed applications.
- Defined technical guidelines and best practices, as well as conducted code reviews and advocated improvements to produce scalable front-end solutions.

Front-End UI/UX Developer @ Questex

April 2014 - February 2016

- Responsible for developing the front-end architecture of enterprise-grade web applications using various technologies.
- Worked at length with engineering leads, product managers, art directors, and designers to implement modern trends and user experiences.
